Wyoming Regulatory Program

AGENCY: Office of Surface Mining Reclamation and Enforcement, Interior.

ACTION: Proposed rule; public comment period and opportunity for public hearing on proposed amendment.

SUMMARY: We, the Office of Surface Mining Reclamation and Enforcement (OSMRE), are announcing receipt of a proposed regulatory and statutory amendment to the Wyoming coal program (Wyoming program) under the Surface Mining Control and Reclamation Act of 1977 (SMCRA or the Act). On September 25, 2018 the Wyoming Environmental Quality Council approved a number of revisions to rules governing permitting, operation, and abandonment of Class III underground injection and recovery wells associated with in situ mining of coal. Specifically, the proposed revisions update regulations to be consistent with Environmental Protection Agency Underground Injection Control regulations for class III wells, reorganize the chapter to better correlate with other key Land Quality Division (LQD) regulations and to reference existing LQD regulations and definitions, update regulations to be consistent with other Wyoming regulations pertaining to well construction, well abandonment, and aquifer exemptions, and update regulations to include current best management practices specific to in situ

coal mining.

This document gives the times and locations that the Wyoming program and this proposed amendment to that program are available for your inspection, the comment period during which you may submit written comments on the amendment, and the procedures that we will follow for the public hearing, if one is requested.

DATES: We will accept written comments on this amendment until 4 p.m., M.D.T., [INSERT DATE 30 DAYS AFTER DATE OF PUBLICATION IN THE *FEDERAL REGISTER*]. If requested, we may hold a public hearing or meeting on the amendment on [INSERT DATE 25 DAYS AFTER DATE OF PUBLICATION IN THE *FEDERAL REGISTER*]. We will accept requests to speak at a hearing until 4 p.m., M.D.T., on [INSERT DATE 15 DAYS AFTER DATE OF PUBLICATION IN THE *FEDERAL REGISTER*].

I. Background on the Wyoming Program

Subject to OSMRE's oversight, section 503(a) of the Act permits a State to assume primacy for the regulation of surface coal mining and reclamation operations on non-Federal and non-Indian lands within its borders by demonstrating that its approved State program includes, among other things, State laws and regulations that govern surface coal mining and reclamation operations in accordance with the Act and consistent with the Federal regulations. See 30 U.S.C. 1253(a)(1) and (7).

On the basis of these criteria, the Secretary of the Interior conditionally approved the Wyoming program on November 26, 1980. You can find background information on the Wyoming program, including the Secretary's findings, the disposition of comments, and conditions of approval of the Wyoming program in the November 26, 1980 **Federal Register** 45 FR 78637. You can also find later actions concerning the Wyoming program and program amendments at 30 CFR 950.10.

II. Description of the Proposed Amendment

By letter dated February 14, 2023 (Document ID No. OSM-2023-0004), Wyoming sent us an amendment to its program under SMCRA (30 U.S.C. 1201 *et seq.*). We found Wyoming's proposed amendment administratively complete on March 7, 2023.

Between 1994 and 2002 Wyoming enacted several revisions to the Coal Chapter 18 Rules. On September 25, 2018 the Wyoming Environmental Quality Council approved a number of revisions to the rules governing Class III well associated with in situ mining. The proposed amendment is a state initiative intended to update Chapter 18, which was last revised in 2002. Specifically the proposed revisions: 1) update regulations to be consistent with Environmental Protection Agency Underground Injection Control regulations for class III wells, 2) reorganize the chapter to better correlate with other key LQD regulations and to reference existing LQD regulations and definitions, 3) update regulations to be consistent with other Wyoming regulations pertaining to well construction, well abandonment, and aquifer exemptions, and 4) update regulations to include current best management practices specific to in situ coal mining.

The full text of the program and/or plan amendment is available for you to read at the locations listed above under **ADDRESSES** or at www.regulations.gov.

III. Public Comment Procedures

Under the provisions of 30 CFR 732.17(h), we are seeking your comments on whether the amendment satisfies the applicable program approval criteria of 30 CFR 732.15. If we approve the amendment, it will become part of the State program.

Electronic or Written Comments

If you submit written or electronic comments on the proposed rule during the 30-

day comment period, they should be specific, confined to issues pertinent to the proposed regulations, and explain the reason for any recommended change(s). We appreciate any and all comments, but those most useful and likely to influence decisions on the final regulations will be those that either involve personal experience or include citations to and analyses of SMCRA, its legislative history, its implementing regulations, case law, other pertinent State or Federal laws or regulations, technical literature, or other relevant publications.

We cannot ensure that comments received after the close of the comment period (see **DATES**) or sent to an address other than those listed (see **ADDRESSES**) will be included in the docket for this rulemaking and considered.

Public Availability of Comments

Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment including your personal identifying information, may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Public Hearing

If you wish to speak at the public hearing, contact the person listed under **FOR FURTHER INFORMATION CONTACT** by 4 p.m., M.D.T. on [INSERT DATE 15 DAYS AFTER DATE OF PUBLICATION IN THE *FEDERAL REGISTER*]. If you are disabled and need reasonable accommodations to attend a public hearing, contact the person listed under **FOR FURTHER INFORMATION CONTACT**. We will arrange the location and time of the hearing with those persons requesting the hearing. If no one requests an opportunity to speak, we will not hold a hearing.

To assist the transcriber and ensure an accurate record, we request, if possible, that each person who speaks at the public hearing provide us with a written copy of his or her comments. The public hearing will continue on the specified date until everyone scheduled to speak has been given an opportunity to be heard. If you are in the audience and have not been scheduled to speak and wish to do so, you will be allowed to speak after those who have been scheduled. We will end the hearing after everyone scheduled to speak and others present in the audience who wish to speak, have been heard.

Public Meeting

If only one person requests an opportunity to speak, we may hold a public meeting rather than a public hearing. If you wish to meet with us to discuss the amendment, please request a meeting by contacting the person listed under **FOR FURTHER INFORMATION CONTACT**. All such meetings are open to the public and, if possible, we will post notices of meetings at the locations listed under **ADDRESSES**. We will make a written summary of each meeting a part of the administrative record.

IV. Procedural Determinations

Executive Order 12866 - Regulatory Planning and Review, Executive Order 13563—Improving Regulation and Regulatory Review, and Executive Order 14094 – Modernizing Regulatory Review

Executive Order 12866, as amended by Executive Order 14094, provides that the Office of Information and Regulatory Affairs in the Office of Management and Budget (OMB) will review all significant rules. Pursuant to OMB guidance, dated October 12, 1993, the approval of State program and/or AML plan amendments is exempted from OMB review under Executive Order 12866, as amended by Executive Order 14094. Executive Order 13563, which reaffirms and supplements Executive Order 12866, retains

this exemption.

Other Laws and Executive Orders Affecting Rulemaking

When a State submits a program amendment to OSMRE for review, our regulations at 30 CFR 732.17(h) require us to publish a notice in the **Federal Register** indicating receipt of the proposed amendment, its text or a summary of its terms, and an opportunity for public comment.

We conclude our review of the proposed amendment after the close of the public comment period and determine whether the amendment should be approved, approved in part, or not approved. At that time, we will also make the determinations and certifications required by the various laws and Executive Orders governing the rulemaking process and include them in the final rule.
